IT/SOFTWARE
TRANSLATION

IT has been the core industry of specialty since Commit's establishment. Our IT-SW Localization teams work on projects from Fortune 500 clients, helping them localize products, software applications and services from every possible IT sector, including cell phones, handhelds, computers, imaging & printing devices, networking & storage equipment, peripherals, etc.

THE RIGHT TOOLS

Commit uses industry-leading translation/localization and project/workflow management tools that drive down costs, increase accuracy, reduce human error and preserve language assets for future use. Customers are in total control at every project stage.

EXCEPTIONAL SERVICE

Our expertise, responsiveness and flexibility ensure precise and professional project management. Our teams consist of project coordinators, project managers and linguists that have been trained, working and acquiring experience in the IT-SW field and are able to deeply understand the linguistic issues and the technical challenges of your projects. Also, Commit is certified according to ISO 9001 and ISO 17100, applying strict QA procedures during everyday work.

SUBJECT MATTER EXPERTS

Our IT/SW Localization teams are experts on IT technology and products and can help you localize your software applications, following sophisticated and specialized processes and using specific tools for localization and testing. Also, the professional translators we use are carefully selected, they are native to the target language and have substantial experience in the IT/SW field.

CONSISTENCY

When it comes to software localization, consistency is key. Haven't you noticed when a User guide prompts you to click on a button that is worded differently in the software itself? Commit localizes your user manual, online help files and graphical user interface (GUI) ensuring consistency and helping you maintain a reliable corporate image.

PROJECT EXPERTISE

- **Software localization**
- **Documentation & user manuals**
- **User Interface translations**
- **Online help files translations**
- **E-learning, tutorial, training & multimedia translations**
- **Websites and operating systems**
